COMPRESSION LOCKS

LOCKING AND NON-LOCKING FLUSH LATCH

- Compression action pulls door tight, without wear on latch contact point or frame. Each lock has a broad grip range which is adjustable to accommodate grip changes over time.
- Raised trigger models provide enhanced ergonomics making it easier to open the lock whilst wearing thick gloves
- Installs quickly in single rectangular mounting hole, with just one bracket/mounting screw
- Available in matt black powder coat with a stainless steel shutter
- Choice of flush trigger and non-locking/locking raised trigger actuation styles
- Die cast zinc
- Complete with rubber gasket. & fixing bracket
