### **Part Number CLM Available in 12–30 volt DC**

Market-leading slim line LED light, suitable for many applications where a wide beam angle, low profile and shock-resistant housing are required.

CLMs are ideal for refrigerated trucks and trailers, as well as commercial vehicle interiors and marine applications. In buses and coaches, our customers find them ideal for doorways and luggage areas,

Using the latest LED technology from the highest-quality producers, CLMs are surface mounted but unobtrusive, with a low 10mm profile the CLM is good looking too. Its robust construction features a black anodised aluminium base, In refrigerated vehicles CL will operate to -40C with no loss in light output and no warm-up time to reach full brightness.

CL's innovative design provides a light spread of 110 degrees, unique among its competitors
